MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT: National Intelligence Survey (NIS)  
Production Schedule for FY 1969

REFERENCE: USIB-M-504, 11 April 1968

1. In accordance with the reference, the NIS Committee submits herewith the NIS Production Schedule for FY 1969.
2. The schedule reflects a transition to the production priorities established in the NIS coverage plan recently approved by the Board. A few units are included that are not shown on the plan; production processing on these was underway before the plan was approved.
3. Two pilot units on Social Characteristics -- a new element consolidating into a single volume the sociological coverage now provided in three separate volumes -- introduce a new concept that permits more efficient and effective presentation of supplementary sociological coverage in the NIS. The supplementary unit on Manpower is being phased out in favor of a somewhat expanded treatment of the subject in the more frequently revised General Survey.
4. Production units for FY 1969 total 385, a 10% reduction over that for FY 1968.
